The **FD 3302 Air-Suction Document Folder** offers high performance folding in a **compact tabletop unit**. The air-suction feed technology reduces static electricity and minimizes feed marks common in traditional friction feed systems. With a speed of **up to 18,600 sheets per hour**, and a **feed tray capacity of up to 625 sheets**, the FD 3302 quickly powers through a range of applications, all at the touch of a button. It's designed to handle a variety of paper weights and sizes, **up to 25.5" long**. User-friendly features include **automatic paper size detection** and fold plate settings, a **color touchscreen control panel**, a **four-digit counter with batch counting**, **six programmed fold settings**, and the ability to **store up to 30 custom folds**.

Color Touchscreen Control Panel
Program and make adjustments quickly and easily

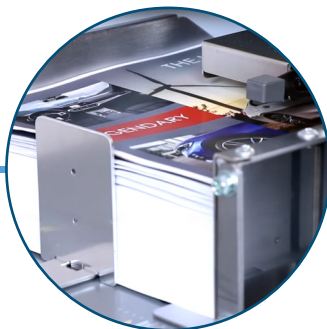

Outfeed Stacking Belt & Rollers
Automatically adjusts to paper size, with two tray positions available

Side Air System
Enhances feeding of heavy stock and large paper sizes

Extended Infeed Tray with Air Suction
Handles sheets up to 25.5" long, using both optical and ultrasonic sensors

Automatic Paper Size Detection
Recognizes popular sizes including letter, legal, half letter, and half legal

STANDARD FEATURES

- Air-suction feed system
- Color touchscreen control panel
- Extended infeed for sheets up to 25.5" long
- Automatic paper size detection
- Side air system
- Adjustable air flow
- Double feed detection
- Outfeed stacker automatically adjusts
- Batch counting
- Pre-programmed with 6 standard folds
- Up to 30 custom folds
- Noise reduction
- Built-in DC fans for quiet operation
- Four-digit counter
- Adjustable stack height lever
- Four fold rollers
- Fault detection features
- Easy access to paper path
