

→ FC 10 TWIN TOWER SYSTEM

AUTOMATIC 20-BIN FRICTION COLLATING SYSTEM · collates variety of paper stocks and weights at speeds up to 3,600 sets per hour* · 275 sheet bin capacity* · collator units can be used in tandem or separately while connected · touch-button control panel with LED 4 digit counter simplifies set-up and operation · programming modes include preset batch, insertion, and an alternate bin mode for continuous production · adjustable stacking table for straight or criss-cross stacking · self-centering feed guides eliminate the need to reposition on-line bookletmakers for different size stock · adjustable feed and separator pressures on each bin · "bin empty" sensor · extra large, detachable feed trays · bases with casters are optional (shown)

Dimensions (D x W x H): 27 3/8 x 86 1/2 x 41 1/4 inches (90 1/2 W, 63 H with bases), Shipping weight: 487 lbs. (587 with bases)

Note:MBM recommends using a bookletmaker with the FC 10 Twin Towers. When collating 11+ sheets (using both towers), the collated sheets exit left. The collated sheets do not have a designated catch tray.

CONTROL PANEL

Programming and operation is controlled from an easy-to-use touch-button control panel.

CRISS-CROSS STACKING

The criss-cross stacking feature allows easy set separation.
