

# OfficePro-21E

The OfficePro-21E Plastic Comb Binding Machine by Tamerica allows you to punch up to 20 sheets at a time using 20 lb paper. The OfficePro-21E offers manual binding and has a capacity of 2" in thickness and 11.7" in length. The unit has a depth margin control that aids in strengthening the bindings. The 21 disengageable dies are great when punching odd size documents. This electric comb binding machine features a compact design and is great for the school or office.
