

# OfficePro-34E

The Tamerica OfficePro-34E Electric Wire Binding Machine allows you to punch up to 20 sheets at a time using 20 lb paper. The OfficePro-34E offers manual wire binding and can bind up to 1/2" in thickness (approximately 100 sheets). The OfficePro-34E punches up to 11.7" in length. The unit has a depth margin control that aids in strengthening the bindings. The 34 disengageable dies are great when punching odd size documents. The OfficePro-34E wire binding machine features a compact design and is great for the school or office.
