

TCC 330 Pouch Laminator

The TCC 330 Pouch Laminator with a 13" wide laminating throat is an ideal pouch laminator for medium use office laminating environments. This pouch laminator is capable of laminating letter, legal and menu size documents in laminating pouches up to 10 mil in thickness. This pouch laminator features a quick warm-up time of 3.5 to 4.5 minutes along with a lamination speed of 14" per minute.

The 4 roller system distributes heat evenly to provide smooth lamination. An adjustable temperature control allows for a precise laminating temperature. Durably built with a metal casing and metal gears the TCC 330 Pouch Laminator will provide you with years of worry free lamination.
