

Akiles iWire

Wire Punch and Binding Equipment

With its modern and compact design, the iWire punch and binding machine is the perfect all-in-one solution for any office environment. It is light weight and portable, but features the latest technology in the industry.

FEATURES:

- **Hardened Punch Die System:** Individually cast-hardened and heat-treated steel punch dies ensures many years of trouble-free operation.
- **Easy & Efficient Operation:** Simple 2-step setup & 15-sheet single punch capacity makes your binding job easier than ever.
- **Wire Measuring Guides:** Built-in guides help determine the correct wire size to be used for any given book thickness.
- **Available In 2 Versions:** iWire 3:1 version binds up to 9/16". iWire 2:1 version binds 5/8" to 1-1/4".
- **Vertical Punching:** For easy alignment of sheets and reduced punching errors.
- **Ergonomic Handle:** For a smooth and effortless punch everytime.
- **Wire Size Guide and Waste Drawer.**
- **Wire Holder:** Holds wire in place for easy insertion of sheets.
- **Wire Size Selector:** Determines the best wire size to be used on your document.
- **Wire Closer Selector:** Slide the selector bar and set the wire closer according to your wire size, for a secure closure every time.
- **Side Margin Control:** Guarantees a well-centered punch on each document.
